

## Worksheet 5/7 on Subject Verb Agreement

### Mini Lesson

### Definition

Verbs sometime change depending on the person you are writing about. The verb family "to have" is a tricky one.

### Example

I *have* two meat eating plants. He *has* two venus flytraps.

### Directions

Write "*have*" or "*has*" to complete the sentences. The first one has been done for you. (**Read the sentences aloud** to hear if they make sense to you.)

- 1 Some plants have a diet of meat, an insect. This diet puts them under the carnivores food chain category.

---

- 2 The venus flytrap \_\_\_\_\_ to move to capture its prey and \_\_\_\_\_ two kidney shaped lobes that snap shut once it is successful with its hunt.

---

- 3 Some plants \_\_\_\_\_ the dietary requirements of a carnivore.

---

- 4 The sticky sundew \_\_\_\_\_ sticky hairs that produce a glue like substance that cling to the landed insect.

---

- 5 Meat eating plants \_\_\_\_\_ several ingenious adaptations to eat.

---

- 6 Once they have landed, the struggling insect does not \_\_\_\_\_ much of a chance to escape.

---

- 7 The venus flytrap and the cobra lily \_\_\_\_\_ sweet smelling nectar.

---

- 8 These meat eating plants \_\_\_\_\_ enzymes that they secrete to digest the trapped insect.

---

- 9 The venus flytrap \_\_\_\_\_ to digest its meal for up to two weeks before they can eat again.

---

- 10 Insects \_\_\_\_\_ an exoskeleton that is not digested and blows away once the plant is finished its meal and \_\_\_\_\_ opens their trap door.

---

### The Present Tense Verb Family "To Have"

#### Singular

I have

You have

She has

He has

It has

#### Plural

We have

You have

They have
